ACHIEVEMENTS AND SKILLS GAINED:

– Improve team leading skill.

– Improve task management skill.

– Improve requirement gathering skill.

– Improve develop/programming skill

SKILLS

- ✓ **Full stack.**
  Software Development,
  Architecture software, OS,
  Database

- ✓ **C#, Backend**
  Half of my projects are working with
  C# Winform, NET Framework,
  WPF

- ✓ **.Net MVC, .NET Core, API**
  Over 5 years with C#, I'm very
  familiar with this and can handle a
  project from nothing to release

- ✓ **DESIGN PATTERN, DI/IOC,
  ORM**
  Good knowledge of Desing Pattern
  and apply to project, Good
  knowledge of ORM: EF, BLToolkit,
  Dapper

- ✓ **Front end**
  HTM5, CSS3, Javascript, AngularJs,
  Angular 5, Typescript, React Js

- ✓ **Mobile Apps**
  React Native / Flutter / Android

- ✓ **Open Source**
  NopeEcommerce, Open source
  platform for builder app

- ✓ **CRITIAL THIKING, OPEN-
  MINDED**

- ✓ **COMMUNICATION**

- ✓ **RESEARCH SKILL**

  I also can work under pressure and
  have strong passion for learning new
  things

MODOHO (FREELANCE PROJECT) (MAY 2019-PRESENT)

Main Developer

ABOUT PROJECT:

Mobile App.
- Platform for agent

PLATFORM & TECHNIQUES:

C#, .NET Core, Entity Framework, SQL Lite, React Native

TEAM WITH 2 MEMBERS

MAIN RESPONSIBILITIES:

Business Analyst / Main Developer
– Communicating with clients/departments & deriving requirements.
– Define business flow.
– Meeting with project manager to define milestone & release schedule.

RECOGNITION AND GAINS:

– Improve technical skill React Native.
– Improve UI/UX skill mobile app.
– Improve business analyzing skill.
– Develop teamwork spirit.

FSC GLOBAL COMPNAY (FREELANCE PROJECT) (OCT 2018 - FEB 2019)

Main Developer

ABOUT PROJECT:

Trading Pro Edu.
- Platform for eLearning

PLATFORM & TECHNIQUES:

C#, .NET Core, Entity Framework, SQL Lite, ReactJs

TEAM WITH 2 MEMBERS

MAIN RESPONSIBILITIES:

Business Analyst / Main Developer

– Communicating with clients/departments & deriving requirements.

– Define business flow.

– Meeting with project manager to define milestone & release schedule.

RECOGNITION AND GAINS:

– Improve business analyzing skill.
– Develop teamwork spirit.

2

EDUCATION

DALAT UNIVERSITY

IT Engineer

Information Technology

HOBBIES & INTERESTS

- ✓ Reading,
- ✓ Coding
- ✓ Sport,
- ✓ Music
- ✓ Travelling
- ✓ Learning new things
- ✓

NEXCEL SOLUTIONS COMPANY (JUN 2018 – PRESENT, FULLTIME)

Software Engineer

MAIN PROJECTS:

Operation Working Pages.
- Change workflow process of client from offline to online.
- The Product support for client working with task schedule.
- Support for pickup driver team.
- Support team management view reports.

PLATFORM & TECHNIQUES:

C#, .NET MVC, Dapper, SQL Server, ReactJs

TEAM WITH 10+ MEMBERS

MAIN RESPONSIBILITIES:

Worked as one of the main contributors.
– Communicating with clients/departments & deriving requirements.
– Define business flow.
– Meeting with project manager to define milestone & release schedule.
- Supported new teammates.

RECOGNITION AND GAINS:

– Improve technical skill.
– Improve Agile & Scrum skill.
– Improve business analyzing skill.
– Improve Agile & Scrum skill.

– Develop teamwork spirit.

GIA KHANH LAND COMPANY (FREELANCE PROJECT) (JAN 2018 - MAY 2018)

Main Developer

ABOUT PROJECT:

SEO Application (Auto SEO) / Application support for SEOer.

PLATFORM & TECHNIQUES:

C#, Entity Framework, SQL Lite

TEAM WITH 2 MEMBERS

MAIN RESPONSIBILITIES:

Business Analyst / Main Developer
– Communicating with clients/departments & deriving requirements.
– Define business flow.
– Meeting with project manager to define milestone & release schedule.

RECOGNITION AND GAINS:

– Improve business analyzing skill.
– Develop teamwork spirit.

QUIZZ APPLICATION

Main Developer

ABOUT PROJECT:

Quizz Application Online for IT Faculty of University Dalat.

PLATFORM & TECHNIQUES:

.NET Core, Angular 5. SQL Server, Entity Framework

TEAM WITH 2 MEMBERS

MAIN RESPONSIBILITIES:

Work as Business Analyst and Project Manager.

– Research and support technical team.

– Define business flow.

– Design database architecture.

– Solve problems when needed.

– Planning, scheduling & testing.

– Deploy system to clients

– Improve business analyzing skill.

– Develop teamwork spirit.

CRYPTOCURENCY EXCHANGE (OCT 2017 - DEC 2017)

Team Member, Developer

Build on demand

ABOUT PROJECT:

Internal Crypto Currency Exchange Platform

PLATFORM & TECHNIQUES:

C#, .Net Mvc Entity Framework, SignalR, Realtime, Crypto API

TEAM WITH 5 MEMBERS

MAIN RESPONSIBILITIES:

Team member Developer
– Communicating with clients/departments & deriving requirements.
– Define business flow.
- Coding
– Meeting with project manager to define milestone & release schedule.

RECOGNITION AND GAINS:

– Improve business analyzing skill.
– Develop teamwork spirit.

HRM SOLUTION (JUN 2017 - SEP 2017)

Team Member, Developer

ABOUT PROJECT:

Maintainent for currently project of Customer, Development new feature

PLATFORM & TECHNIQUES:

.NET MVC, SignalR, Realtime, SMS API. SQL Server, Entity Framework

TEAM WITH 2 MEMBERS

ROLE & RESPONSIBILITY

- Business Analyst, Main Developer
– Research and support technical team.
– Coding review
– Solve problems when needed.
– Communicating with clients/departments & deriving requirements.
– Define business flow.
– Investigate current system.

SCG CRM (MAY 2017 - SEP 2017)

Team Member, Developer

Build on demand

ABOUT PROJECT:

Microsite, CMR for SCG

PLATFORM & TECHNIQUES:

C#, .Net Mvc Entity Framework, SignalR

TEAM WITH 5 MEMBERS

ROLE & RESPONSIBILITY

Team member Developer
– Communicating with clients/departments & deriving requirements.
– Define business flow.
– Coding
– Meeting with project manager to define milestone & release schedule.

SALES MANAGEMENT SYSTEM (MAY 2016 - JUL 2016)

Business Analyst, Main Developer

ABOUT PROJECT:

Track sales and reward points, ROI tracking, KPI tracking

Sales performance management, SMS marketing

PLATFORM & TECHNIQUES:

.NET MVC, SignalR, Realtime, SMS API. SQL Server, Entity Framework

TEAM WITH 2 MEMBERS

ROLE & RESPONSIBILITY

- Business Analyst, Main Developer

– Research and support technical team.

– Coding review

– Solve problems when needed.

– Communicating with clients/departments & deriving requirements.

– Define business flow.

– Investigate current system.

UPQUES SOCICAL NETWORKING (2015-2016)

Business Analyst, Developer

ABOUT PROJECT:

Social sharing knowledge, Platform quora.com
Startup

PLATFORM & TECHNIQUES:

C#, .Net Mvc Entity Framework, MongoDB, SignalR, Facebook, Socical API

TEAM WITH 2 MEMBERS

ROLE & RESPONSIBILITY

– Define business flow.

– Coding Review

– Development

– Deploy

YERSIN UNIVERSITY WEBSITE CMS (MAY 2015 - OTC 2015)

Business Analyst, Main Developer

ABOUT PROJECT:

Website to show activities of Yersin University

Management news, student information, timesheets & transcript inside university

PLATFORM & TECHNIQUES:

.NET MVC, SignalR, SQL Server, Entity Framework, Angular Js. Jquery

TEAM WITH 2 MEMBERS

ROLE & RESPONSIBILITY

- Business Analyst, Main Developer

– Research and support technical team.

– Coding review

– Solve problems when needed.

– Communicating with clients/departments & deriving requirements.

– Define business flow.

– Investigate current system.
